

SAFETY DATA SHEET

BRSVR — Clay Viscosity Reducer

Section 1: Identification

Product identifier: BRSVR

Trade name: Clay Viscosity Reducer

Recommended use: Viscosity-reducing additive for clay-based drilling fluids

Manufacturer / Supplier: Brighter Star Drilling Fluids

Website: www.pcenigeria.com

Section 2: Hazards Identification

Hazard classification: Not classified as a hazardous substance or dangerous good

Routes of entry: May be absorbed into the body by inhalation, ingestion, and skin contact

Health hazards: Contact with this compound is essentially non-hazardous to humans

Environmental hazards: Non-toxic to aquatic organisms; may cause long-term adverse effects to water bodies

Fire / explosion hazard: Not flammable; not explosive

Section 3: Composition / Information on Ingredients

Chemical characterization: Mixture.

Component	Content (% by weight)
VAE emulsion	27.69
Styrene-acrylic emulsion	44.16
Methyl methacrylate	4.10
Composite dispersant	0.30
Emulsifier	0.20
Film-forming aid (coalescent)	2.00
Composite defoamer	0.30

Component	Content (% by weight)
Sodium persulfate	5.30
Composite thickener	1.50
Water	14.05

Section 4: First-Aid Measures

Skin contact: This compound is not hazardous to humans on skin contact. Wash the affected area with clean water and soap. If discomfort occurs, seek medical attention immediately.

Ingestion: Do NOT drink fat-containing beverages such as milk. Seek medical attention immediately.

Eye contact: Rinse immediately with plenty of clean water for at least 20–30 minutes. Seek medical attention immediately.

Section 5: Fire-Fighting Measures

Hazard characteristics: Not easily ignited by open flame; does not release smoke when heated to its decomposition temperature

Suitable extinguishing media: Class B extinguishing agents (e.g., dry chemical powder, carbon dioxide)

Firefighting procedures: Firefighters should wear suitable protective clothing and a fully equipped self-contained breathing apparatus

Section 6: Accidental Release Measures

Emergency procedures: Recover the spilled material.

Personal precautions: Emergency responders should wear protective clothing, safety goggles, and a protective mask.

Section 7: Handling and Storage

Handling precautions: Operators must be specially trained and must strictly follow the operating procedures. Wear chemical safety goggles, a protective mask, and dust-proof clothing. Load and unload gently to prevent damage to the packaging containers.

Storage precautions: Store in a cool, well-ventilated, and dry place. Avoid prolonged exposure to direct sunlight.

Section 8: Exposure Controls / Personal Protection

Engineering / process controls: Wash hands and shower after contact with this material or after work. Change wet or contaminated clothing promptly. Do not take work clothing out of the workplace.

Hand protection: Wash hands immediately after handling this material.

Eye protection: Avoid contact with eyes.

Ingestion: This product must not be ingested.

Section 9: Physical and Chemical Properties

Property	Value
Appearance	Viscous liquid
Odor	Odorless
Molecular formula	Unknown
pH	Alkaline
Relative density	1.2–1.4 g/cm ³
Upper explosion limit	None
Lower explosion limit	None
Solubility	Readily soluble in water

Section 10: Stability and Reactivity

Reactivity: Not reactive

Chemical stability: This compound is stable under normal laboratory conditions

Hazardous polymerization: Will not occur

Section 11: Toxicological Information

Acute toxicity: None

Carcinogenicity: None

Irritation: Causes some irritation to skin and eyes

Section 12: Ecological Information

Ecotoxicity: Generally not harmful to the environment; avoid direct discharge into rivers

Bioaccumulative potential: Not determined

Biodegradability: Not determined

Abiotic degradation: Not determined

Section 13: Disposal Considerations

Waste disposal methods: Do not dispose of residues by landfill or incineration. Consult the environmental protection authorities to determine the appropriate disposal method.

Contaminated packaging: Dispose of packaging in accordance with local regulations. Packaging contaminated with the product should be treated as residual product.

Section 14: Transport Information

This product is not listed in the Regulations on the Transport of Dangerous Goods and is not regulated as a dangerous good for transport.

Section 15: Regulatory Information

The Regulations on the Safety Management of Hazardous Chemicals establish corresponding provisions for the safe production, use, storage, transportation, loading, and unloading of hazardous chemicals.

Section 16: Other Information

Disclaimer: The information contained in this Safety Data Sheet is based on the current state of knowledge and is provided in good faith. It describes the product with regard to safety requirements and does not guarantee any specific properties. The user is responsible for ensuring that the product is used, handled, stored, and disposed of safely and in compliance with all applicable local laws and regulations.
